Sales Items Listing	Page 10

**SPECIAL NOTICE: Change to Annual Membership "Due Date."**

Memberships are: Annual - \$20.00, Life - \$200.00 [may be paid in installments of \$25.00, at least Quarterly].

Recent, by a majority of the Board of Directors, was to change the Annual Membership from a Fiscal year Date [NAAV fiscal year starts on July 1] to coincide with the "Sign-up Month of the member. Ex: Signed up in December 2000, Dues "Due Date" is 01/01/02.

We are not mailing "Dues Due Date Reminders." Please look at the Mailing Label used on this newsletter to you. At the right of your name is the date you are paid up to. Ex: 07/01/00 is July 1, 2001. For those paying Quarterly "Life Pay" See following Explanation in HIGHLIGHTED INSERT in Left Column on Pg. 2.

We will no longer mail newsletters to Members whose "Dues Due Date exceeds One Year Past Due."

**Newsletter Returns are Costly. If you have, or are relocating, or are a "traveler", Please consider notifying the NAAV Office with Address or Forwarding Change. Newsletter returns Cost Approximately Three (3) Times the Original Mailing Cost. If your newsletter is returned with No Forwarding Address we will not attempt a re-send.**

**SPECIAL: The Membership Database is maintained at the National Office in Los Lunas, NM. Merchandise Sales, Certificates, etc. Are handled in Houston, TX. In order to alleviate confusion of Membership Dues Dates, Please send your Monies for same to the Los Lunas, NM Address & Monies for Merchandise, etc. To Houston Address. We realize this may be inconvenient But These are handled through two separate Banking Accounts & Systems in two different geographic areas. Thank you for these considerations. Dick, National Commander**

**PLEASE NOTE:** Please place Return Address on outside of envelopes being sent to the NAAV Office. When sending checks please indicate what they are paying. When not so noted, we sometimes have to guess. Thanks

**LIFE PAY Memberships:**

**There has been, and still is, some confusion regarding "Life Payments on a Quarterly basis." In order to attempt to clarify this situation we have incorporated the following: These members will now show on the Address Label on the Newsletters a Status of "Life-PX" "X" being a number. When you sign up initially and submit your first payment of \$25.00 your Label will show "Life-P7", the "7" reflects 7 more quarterly payments - "Due when the Newsletter is received." If multiples of the \$25 Quarterly payments are made, such as \$50 then the number will be reduced by 2. Example: Initially pay \$25 your "Life-P\_" is 7. The next Quarter \$50 is submitted, then the Status will be "Life-P5".**

**We have some Life-P (maybe a number) that the status of payment cannot be determined. For those of you in this category we ask you to submit "copies of your records of payments" in order that we may clarify your "Status".**

**Thank you for this Clarifying Assistance.**

**N.A.A.V. "Tall Ship Model" Raffle. Inserts within this newsletter of: Colored Flyer, Sheet of Tickets, Sheet of "perferfed" tickets, and Brief Instruction Sheet. This is an excellent opportunity to Raise Funds. Submit "Sold Tickets along with Payments" to the N.A.A.V. Office in Los Lunas, NM. We thank you for your efforts!**

\*\*\*\*\*

*Atomic Veterans**Newsletter*

The *Atomic Veteran Newsletter* is published quarterly and is the official newsletter of the National Association of Atomic Veterans.

**Board of Directors**

National Commander: Richard U. Conant

Vice Commander: Rudy J. Ritter

Adjutant: William P. Harper

Treasurer: Bernard Clark

**Directors:**

Executive & Legislative - Glen Dale Howard

Directors of Fund Raising - (Eastern) Claude Burpee

(Western) William Harper

Special Projects Director - Terry Brady

Legislative Liason [District of Columbia] - Charles McKay

Legislative Advisor - Mrs. Pat Broudy

Medical Files Custodian -

Research Consultant - Edward "Vic" Fenton

National Service Officer - Erick Robinson

The material in this newsletter is protected. No part of it may be used without prior permission.

Letters to the Editor and Articles must be **signed** to be published. Name withheld upon request.

NAAV reserves the right to edit and publish material submitted. Articles on atomic testing, other radiation-risk activities, biological effects of exposure to ionizing radiation, the politics and history of military and civilian exposure, accounts of personal experiences, cartoons, photographs, poems, essays and other material will be considered for publication.

The views and opinions of contributions do not necessarily represent those of the National Association of Atomic Veterans.

**COMMANDER's CORNER:** The past year has reflected some operational problems and many incidents of well being.

Through the continuous efforts and input of all of the Directors, Director Dale Howard for his work as Executive Director and hundreds of hours working to revitalize the Membership Roster; many volunteers [to recognize a few: Charlotte Howard, NM who has worked diligently assisting the Membership Database; Becky Miller, FL with her downloading of info on the Internet & forwarding this info to us and ; others with continuous Interest Items]. Others have volunteered to assist in many ways. We are developing programs to take advantage of these offers.

The N.A.A.V. Database files were moved to Los Lunas from Boley Caldwell's location in November 2000. Boley desired to give up active daily maintenance due to his health. Rob Campbell volunteered to take over. However, due to failing health Rob had to resign daily participation. We have located another person interested in taking over this function. At present we are coordinating the "plan of attack." We have sent numerous Medical Questionnaires, by e-mail & regular mail. Most have been completed & returned. Along with this Database, one for Genetically Impaired Offspring is being formulated. Many offspring have made inquiries over the past six months. During my testimony in front of the Committee searching the accuracy of Dose Reconstructions, I made the remark "that if Uncle Sam is of the opinion that when the last atomic vet passes, He (Uncle sam) is in for a shock because I believe the plight of offspring (now 2 and one half generations) and their increasing numbers, may well exceed that of the original atomic veterans."

N.A.A.V. held a Director Meeting along with a Remembrance Day Event in Albuquerque on July 15-16. Several business items were discussed and were to be presented to the membership for discussion & input

at this session and the Fall Annual Meeting. The attendees toured the Atomic Museum on the 16th and visited the Los Alamos Museum & Presentation by the museum director on the 17th.

The Annual Meeting was held in Las Vegas, NV on the 14th & 15th of October. Prior discussion to have hold the Annual, or not, because of the September 11th tragedy were discussed and the decision was to go ahead with it. Minutes & results of this meeting can be reviewed in another section of this issue.

The meeting followed the NARS meeting (13-14). During one period discussion of "joint efforts" regarding common legislative endeavors was discussed and favored. Both organizations to coordinate efforts as these items come up.

Both groups jointly attended a presentation by the Nevada Test Site Historical Society during the October 15th afternoon session.

Following this was the introduction of two Committee Members and one National Academy of Science coordinator, looking into the accuracy of Dose Reconstructions. Mr. John Till, Chairman, spoke of their approach to the subject and answered questions. These folks spoke to many attendees on a one to one basis. Note: the Committee came about as a result of the Senate Hearings on S. 1385 in 1998. The committee is to present their report and recommendations in March of 2002. The committee members are all volunteers. They are not VA personnel. Mr. Till requested writings of substantiation from veterans where fallacies with their Dose Reconstructions differ than those furnished by DTRA. N.A.A.V. office is accumulating these.

Two members of the committee are scheduled to visit the N.A.A.V. Office on Dec. 9 when they will browse through some of our Medical History Database and excerpt statistics from these records [during my testimony in June in front of this committee I related that I would allow two of their members to come to the office, look at some files, not copy any, whereby they could see where inaccurate DR's had caused denials of many claims].

This is a brief summary of the past year happenings. Many good things have taken place. The NAAV Web site, through the efforts of Laimon Godel, Jr., has increased in size and offers more assistance & information options; the Portland, OR AVets Web site, by Keith Whittle, continues to grow; the Web site by John deBusk contains more info; NAAV has recently picked up members who had dropped their membership for a variety of reasons; also many new members, many of which did not know of NAAV's existence previously. We received many, many requests for assistance. Our Information & Assistance Pack is e-mailed or sent by regular mail to each inquirer as well as being posted for reading & downloading from the NAAV Web site (print & download requires Adobe Reader). We have received many compliments on this publication which vets have communicated its value in their claim & treatment endeavors. We will be coming out with more projects & programs as we are able to develop them. Bill Harper, Membership director, has placed ads concerning membership in several publications which resulted in new members. These ads will also e placed into other publications.

We are here to Assist. It is less costly & quicker when we can send & receive via e-mail. Realizing many do not have this luxury, then I offer the following sources be looked into: Many Senior Citizens Centers, Libraries, Schools, Grand Children, Friends, Other Sources - can & will set up addresses for you on their computers whereby they will receive & printout your messages & will send same. Some charge a small fee, others do not. This is a valuable connection to have for two reasons: 1. When we desire support for specific legislation, generally the time factor is short - too short for newsletter or general mail; 2. You can subscribe to the e-Nuclear Veterans News (via e-mail only) and keep abreast of many issues. Subscribe by e-mail

request to: RUCON1@juno.com.

Last: in November of 2000 we sent a letter to each State Commander, Area Commander & Reconstruction Coordinators asking "if they desired to stay in these positions." Several RC's suggested that the title be changed to better reflect the position duties. Some suggested Consultants, so Test Consultants became the Title. Several desired to be dropped for various reasons. We have found replacements for some. A complete listing of these positions takes up three & one half pages in the newsletter when printed in its entirety. So we decided to print same annually in the January issue, with Contact Info Changes, Additions, Etc. in each issue. We have heard from a few of these persons over the past year. We have asked in newsletters for them to forward information on hand relative to the "cause" to the Office for our back up use. Few have done so. We have received a few complaints relating to their inquiries by members to these folks and no response. We realize that all of us are getting old, some "burned out", funds may not be adequate, and other reasons. It does no good to be listed and not function the part. However, this issue was brought in front of the Board of Directors for consideration. We also realize that you may have been handicapped by lack of receipt of membership lists. One list was sent out which reflected much out dated info. This was the best info we had at the time. Few responded. A couple were returned because of bad addresses. A New Current List is currently being mailed. Refer to the Meeting article for the results, which was to drop any persons whom we have no continuous contact with. So, any who do not respond positively by Jan. 15, 2002 will be dropped, in order that we may find replacements. We thank all for their previous efforts & assistance. Dick, National Commander.

#### **Minutes of Board Meeting ( 10-14-01 ) in Las Vegas, NV**

Meeting opened by Cmdr. Conant at 1530

Roll call of Directors: Present were Conant, Ritter, Howard and Harper. Burpee and Brady were not able to attend. Clark was enroute and arrived after meeting commenced.

The following issues were addresses and acted upon.

State Commanders: Many State Commanders do not respond to mailings or other methods of communication. The reasons for non-communication may be several, including moving to a new address, not being able to continue on as State commander, or lack of interest, or other.

Motion by Ritter: To remove non-responding State Commanders from list of Officers, with a note of invitation to any state member ( where a State Commander is not listed, ) wishing to assume the post, with the provision that they be able to participate in the affairs of N.A.A.V. on the State level.

Motion seconded by Howard - without objection - motion carried.

Articles of Incorporation: Conant explained the current need to seek out a State to re-incorporate so as to not loose our 501-3C ( non-profit ) status.... We currently are experiencing costs for being incorporated in the State of Iowa, as well as the costs of a second certificate of operation out of the State of Iowa.... ( see note 1. )

Motion by Conant to search for suitable State arrangement.

Motion seconded by Harper - without objection - motion carried.

Constitution Ammendment: Conant explained the time frame required to seek out a new State in which to establish our Articles of Incorporation. Given the fact that the Constitution currently limits each Officer to two ( 2 year ) terms in office, after which he/she cannot be re-elected, and given the need to re-incorporate, between now and next July, it becomes necessary to address the Constitutional question....

Article IV ( section 4.3 ) of the Constitution addresses the two ( 2 year ) term of office.

Motion by Ritter: To amend section 4.3 ( of Article IV ) as follows:

“ All Officers and Directors may serve continuous ( 2 year ) terms provided they are re-elected to such terms of office, and that such election by the Board ( at the national convention, ) is ratified by the membership present and voting. For the purpose of this rule, Officers and Directors will be considered eligible members to cast a vote for or against ratification.“

Motion seconded by Howard - without objection - motion carried.

Annual Convention: Conant suggested that we hold our annual convention as near to the weekend of July 16th ( each year ) so as to coincide with the Atomic Veteran Day of Remembrance.....

Motion by Harper to change as discussed.

Motion seconded by Ritter - without objection - motion carried

Life Membership: Director Burpee submitted a plan to pro-rate life membership payments according to various age brackets.... Howard noted the current costs related to getting membership and all other N.A.A.V. records organized and up-dated. The general opinion was that we should address after we have adequately addressed the Articles of Incorporation issue.

Motion by Ritter to table this issue until next convention...

Motion seconded by Conant - without objection - motion carried...

United Nation ( Atomic Veteran ) participation: Conant explained current ideas, pros and cons of joining an International Atomic Veteran's group ( with possible association with the United Nation Council. ) It was the general opinion of all directors present that this would be costly and could present a problem with the independent operation of N.A.A.V.

Motion by Howard to table this issue until next convention.

Motion seconded by Harper - without objection - motion carried..

General discussions dealing with the business of N.A.A.V.

Howard presented a status report on a Congressional Charter for the Korean Veterans Association. This bill ( H.R. 952 ) is currently locked in committee because there are not enough votes to allow it to reach the House floor.

Ritter reported on the progress of Article of Stores (Quartermaster) items for sale with a complete list of all funds collected and all costs related to same to-date. We will be offering standard products with non-service specific logos, that can be ordered by members of all service branches, rather than keeping costly inventory for soldiers or sailors.....

Ritter reported on the progress of the Atomic Veteran Sponsor program, and requested that all be involved in same.

Conant reported on the status of the "Tall Ship" raffle. Director Burpee donated a model Tall Ship (valued at \$4,000) for the purposes of raising moneys for N.A.A.V.

Motion by Ritter to adjourn;

Motion seconded by Harper - without objection - meeting adjourned

Note 1: After returning to Houston, Director Ritter had a conversation with his attorney about the Articles of Incorporation. His advise was to contact the States of Delaware, or Arizona, since these two states are the easiest to work with. The costs are also the lowest. He stated that the registration process for the State of Delaware could be accomplished on-line through their web site..... We should look into this.

\*\*\*\*\*

**VA HEALTH CARE TREATMENT: ARE YOU A Priority "7" Paying Co-Pays - WHEN YOU COULD BE A "6" AND NOT PAYING???**

Per the following e-mail, please see comments after it [vulluable info to ALL AVets] From: "R J Ritter"

Subject: VA listing

I have signed in to the local ( Houston ) V.A. Hospital and now have my I.D. card. A letter followed ( from Ms. Laura J. Miller - Asst. Deputy Under-Secretary for Health..) return address unknown..... stating that I am in priority group 7-c. I should be in priority group 6 (as I was exposed to radiation in Wigwam.) At the convention, you mentioned getting on the radiation register..... How do I do this ?? If you will let me know, I will call their toll free number and explain my situation. If I need additional assistance, I will let you know. R J

**REPLY:** The info you received as being a Priority 7 Vet is correct, at present. To be upgraded to Priority 6, you must request enrollment on the IRR [Ionizing Radiation Exposure Register} at the Houston VA Medical Health System. [Please refer to the Information & Assistance Package]. Along towards the end is a copy of a letter I wrote to Secretary Principi, along with his response, regarding a situation whereby a Vet had gone to a VA Med Facility, requested to be placed on their IRR, was told they did not know anything about an IRR (the Facility was Houston), so I know they know about it now as they were contacted by Washington Office, after which they contacted the Vet, setup immediate schedule, and he is now on the IRR). Other locations where they did not know about the IRR, now they do. Following my letter & Principi's response is a copy of a portion of the VA Handbook 1301. Within 1301 are 1301.1 - relates to IRR; [1301.2 relates to Agent Orange Register; 1301.3 relates to Gulf syndrome Register, etc not included in the copy but for your info].

While at this, follows some budgetary info of importance - generally **unknown by the average vet:**

1. Being enrolled at the VA Med Facility counts as one vet,
2. Being on the IRR counts as one vet,

Combined this gives the Med Facility two vets total.

As may happen, if this vet is also eligible and on the Agent Orange Register, that now becomes three in number for budgetery purposes.

In addition, if the vet has filed a claim at a Regional Office this adds one to the overall VA Budget.

You can well see why this is a numbers game.

Dale & I have been representing Atomic Vets at the Albuquerque Facility, State of new Mexico, also at VISN 18 level (W. TX, NM, AZ) for over 8 years. We reported these activities to both recent Past Commanders and attempted to further this activity to no avail. As you are aware, we have initiated the appointments of VA Med Facility Reps and are actively pursuing more reps with several already on board. This venture has proved worthy as many of the NSOs in this region contact Dale and/or I for assistance in claims they may be involved in. It has also resulted in a better working relationship with VA Med Facility personnel as we have given our ideas & concerns to them during these meetings and have had adjustments made to existing rules & in some cases regulations. ***This is a recognized program under the VA nationally*** and is usually handled within the VA Voluntary Services Program. We are on several committees here, the main two being the Advocacy Council & VISN 18.

I hope the foregoing explanations will progress to the point that we have Reps at all Med Facilities soon. This is one major way we can assist our constituents.

Lastly, I will explain the basic VA setup:

1. The Regional Office which handles claims.
2. The VA Health System which handles treatment.

For the most part these entities might as well be on separate planets because basic communication has been that whenever medical info is needed by the Regional Office they ask the Med Facility for same. The end of communication.

There has been, and is, a trend to look at locating Regional Offices at closer locations to Med Facilities in order that Vets might cut down time needing to go to both. Here in Albuquerque this is underway with the RO being moved to a new facility near the Med Facility. However, the 2 planet situation will remain for the most part.

I run across "mad" vets all the time who do not realize that one goes to the RO for claims, to the Med Facility for treatment. The vets consider both as one & the same - NOT TRUE.

I hope & trust these explanations are of value. I plan to send copies of this to all with e-mail & make copies to send to all State & Area Commanders, Test Consultants, etc., not on e-mail. Most of the above is also reflected in the Information & Assistance package.

## **DO YOU DESIRE TO BE A LEADER??**

### **NOMINATION OF DIRECTORS:**

It is that time again when Nominations to serve as Director are entertained.

This is your opportunity to "be in the driver's seat" - please submit your request, in writing to: N.A.A.V., P.O. Box 1691, Los Lunas, NM 87031, along with a brief resume (to be placed in the January 2002 Newsletter) Not Later Than January 15, 2002.

A Ballot will appear in the April Newsletter in order that members may vote for their Nomination of Director of choice from those desiring to run.

Elected Directors will take office at the Annual Meeting in July [see change of Annual Meeting in Item of Annual Meeting summary in this issue].

**"The only food that never goes up in price is 'food for thought'."**

**Subject: RIN2900-AK64**

I received an e-mail today from Bill Russo. He stated many comments were received. The final regulation is being drafted now. When it is published in the Federal Register, they are required by the Congressional Review Act to provide congress 60 days to review it before it may go into effect.

[ED: This is in relation to the "adding of 5 more presumptives." Time factor relates to late Jan. 2002, assuming the President signs the Bill }

\*\*\*\*\*

**VA Health Center Representatives [Help Your Fellow AVet]:**

The **GOAL** is to have one active representative at each VA Health System. The increasing number of volunteers now in place will attest to the value of this Program.

We have found that when Atomic Vets go to many of the Health Systems and request to be placed on the IRR [Ionizing Radiation Exposure Register] they are oft times confronting persons "who do not know the Register exists." Each Facility has a Registry Coordinator. The RC is the person to contact. If you run into a Facility "which does not know about the IRR, or RC", let the N.A.A.V. Office know along with the Facility location, name of person "who did not know", date, and other info. We can correct this "do not know" to "yes, we do know" real quickly. An atomic veteran needs to be on the Register to receive treatment(s) with "no copays." VA Reps are beneficial in this matter as well as others at the Facility and can assist veterans in this endeavor. Atomic Vets are eligible for Representation under VA Health System rules.

**NO VET Should be without treatment** when same is available just by being on the IRR at your local VA Health System.

\*\*\*\*\*

*Reprinted from the 82nd Airborne Division Association Newsletter*

**OUR NATION, OUR GOVERNMENT**

I live in a state which is home to many Native American tribes.

Their wisdom is passed on from generation to generation and is beautiful.

*Hopi wisdom says: "When you discover that you are riding a dead horse, the best strategy is to dismount."*

In modern education and government, however, a whole range of far more advanced strategies are often employed, such as:

1. Buying a stronger whip.
2. Changing riders.
3. Threatening the horse with termination.
4. Appointing a committee to study the horse.
5. Arranging to visit other countries to see how others ride dead horses.
6. Lowering the standards so that dead horses can be included.
7. Reclassifying the dead horse as "living impaired".
8. Hiring outside contractors to ride the dead horse.
9. Harnessing several dead horses together to increase the speed.
10. Providing additional funding and/or training to increase the dead horse's performance.
11. Doing a productivity study to see if lighter riders would improve the dead horse's performance.
12. Declaring that, as the dead horse does not have to be fed, it is less costly, carries lower overhead, and therefore contributes substantially more to the bottom line of the economy than do some other horses.
13. Rewriting the expected performance requirements for all horses.
14. Promoting the dead horse to a supervisory position.
