SEPTEMBER 2018

3RD QUARTER

Members Publication of the National Association of Atomic & Nuclear Veterans

FROM TO DESK OF OUR RETIRING NATIONAL COMMANDER:

We had our 39th convention in Portland, Oregon. We had a grand time and a great convention. We had a five nation convention including the British, French, French Polynesia, Marshall Islanders and United States.

We reelected the same board members, Fred Schafer, Frank Farmer, Haskell Watts and Robert Pfeifer. And we elected 4 new officers. National Commander Keith Kiefer, Vice Commander Fred Schafer, Co-Treasurers are Fred Schafer and Frank Farmer and board member at large Robert Pfeifer. New officers will take office on October 1, 2018. We had a very informative Convention with several speakers.

Barbara and I entertained the five wonderful British, Alan and Mel Owen, Sandie Hern, Erik and Janet Barton. We showed them the Pacific Ocean, took them Whale watching, Showed them Our American Legion in Lebanon Oregon. We kept them traveling and sightseeing for the seven days they were here. The hardest part was putting them back on the plane and sending them home.

I thank the board for the opportunity of serving this past four years as National Commander. Now I will support Keith Kiefer to continue our growth.

Thank you!

Fred H. Schafer

ATTENTION!

We are still accepting donations for this convention to help cover the costs. It was a tremendous success with all the visitors from other countries and we thank all that have helped us in making this 39th meeting possible.

FROM THE DESK OF THE VICE COMMANDER

Greetings,

For those that didn't attend, or were unable to attend this years conference, you missed one great event! We had a reporter from Stars and Strips, Dr. Richards sharing an oral history project, Brian Cowden showing his latest creation (which had us in tears). Additionally, we had a double diplomat, Mr. Brotherson, from Polynesia. He is both a member of the National Assembly for the 3rd district of French Polynesia and for Paris. We were treated to a traditional Marseilles dance by the youth. We also had our Marseilles, British and French friends there with us. Congratulations to Fred and Barb Schafer and the others that made this all possible.

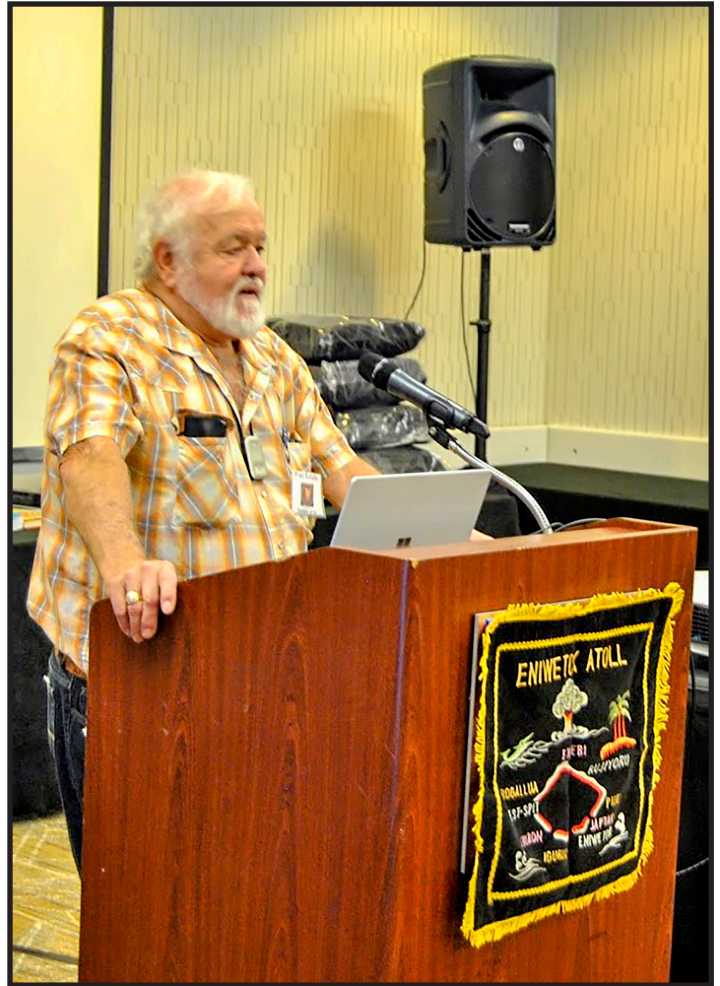

You may have heard that the four Board members, who's terms were up, were reelected. Additional board changes are that Fred Schafer, the current National Commander, and Myself are changing positions. When looking for volunteers, I didn't step back fast enough and was drafted into the National Commander position effective October 1, 2018 and Fred will be the National Vice Commander and co treasurer with Frank Farmer. The other Board members will continue in the same positions. I hope I'm up to the task; I have pretty big shoes to fill. Fred and the other board members have done an outstanding job growing the organization and supporting both members and non members. Please join me in extending your thanks to the dedication and sacrifices they have all made. We couldn't have done it without them.

I will share the legislative updates and other exciting news else where in this newsletter. Thanks again to all that attended the conference and made it such a success.

Keith

JUST IN TIME FOR CHRISTMAS!

NAAV introduces a limited edition Challenge Coin. This is a 1.75 inch 10 Gauge Bright Bronze Challenge Coin. A picture is worth a thousand words. Briefly, one side has the color filled NAAV logo and the other side is dedicated to the founder with a general Mission Statement. The edge is stamped "MADE IN USA". This would be a great gift for an Atomic Veteran, Widow, Children, a collector or your legislators (State and Federal). Legislators cherish Challenge Coins and collect them.

One of these and a similar Challenge Coin sold at an auction in England for 50 and 40 pounds (\$68.50 and \$54.80 USD). At the Conference they auctioned off at \$50.00 USD. BNTVA (the British Atomic Veterans Association) is selling these for 25.00 pounds (\$34.25 USD). For a limited time we are selling the NAAV Challenge Coin in the "Q Store" for \$25.00 USD including Shipping and Handling. Only 200 of these are in existence. That makes this a limited edition Coin. Get yours in time for Christmas and while the supply lasts.

SIDE 1

SIDE 2

LEGISLATIVE UPDATE

BABY STEPS

S2821 (formerly S283 introduced by Senator Al Franken, Minnesota)/HR632. The Mark Takai Atomic Veteran Healthcare Parity Act has made some progress. On the Senate Side the Bill picked up three Senators (with 16 of the 100 Senators as authors or Cosponsors.) The Senators are; Collins (R ME), Leahy (D VT) and Blumenthal (D CT). Presently, Minnesota, Oregon and Maine are the only states with 100% support. HR632 has 238 of the 435 House members supporting the Bill. Five Congressmen have been added; Visclosky (D-IN-1), Stivers (R OH-15), Haris (R MD-1), Kelly (R PA-3), McClintock (R CA-4). We also participated in a round table discussion about this topic with the House VA Sub Committee on Veterans Assistance and Memorial Affairs.

S197/HR2049 Radiation Exposure Compensation Act (RECA) Amendments of 2017 has picked up three Congressmen (for at total of 42) and one Senator (for a total of 6) since the last Newsletter. The new Senator is Cory A. Booker (D-NJ). The three new Congressmen are Steve Cohen (D TN-9), Randy K. Weber Sr. (R TX-14) and Raul R. Labrador (R-ID-1).

S1283/HR2754 Atomic Veteran Service Medal has made some baby steps forward. No progress was made on the Senate side. However, three things happened on the House side. First, the House Bill picked up one Congressman Ben Ray Lujan (D-NM-3). Second, the Text was attached to the NDAA Bill as an amendment. A role call vote was taken and only one Congressman voted against the amendment. Third, the House NDAA Bill passed. On the Senate NDAA Bill we were unable to get an amendment attached. After the Senate Bill, passed the Bills went to Reconciliation. Although the Atomic Veteran Service Medal text did not survive this process, the Secretary of Defense was directed to create a certificate of participation for those that participated in the testing. I imagine it will be six months or more before these are available though. We could, however, make a point by flooding his offices with requests early on. This may persuade the DOD there is a genuine interest in receiving recognition.

HR4675 Low Dose Radiation Research Act of 2017 has passed the House however, no visible activity has been seen regarding introduction of a companion Bill being introduced in the Senate.

NAAV HAS GONE GLOBAL

NAAV has joined forces with other Atomic Veteran organizations around the world by becoming a member of NVW.

The name of the organization is Nuclear Veterans Worldwide. Presently, four organizations are members and more will join soon. Those organizations are; NAAV, BNTVA (British Nuclear Test Veterans, NZNTV (New Zealand Nuclear Test Veterans) and ANTV (Australian Nuclear Test Veterans). We believe by having a unified voice we can bring a global awareness of the sacrifices this community has made. The platform can be used for; Fundraising, Medal campaigns, Social Media, awareness of compensation, Medical lists, Medical Studies, History and Current Situations
